

True CIP – No Disassembly Required

The FKL is the first close-clearance PD pump to be designed for true CIP.

No Rotor Removal

Fristam's FKL needs nothing removed from the pump for CIP. The cover and rotors remain in place. This provides a simple and effective solution with minimal downtime.

No Performance Loss

Other manufacturers have retrofitted their designs to accommodate CIP by increasing the internal slip path. This "shortcut" significantly reduces efficiency. The FKL cleans in place without losing any performance.
